ACID-BASED
DETERGENT

This acid-based detergent chemically dissolves calcium and other hard-water buildups. Excellent for delimiting steam tables and coffee urns. Will not harm stainless steel when used as directed.

DIRECTIONS FOR USES:

NOTE: Never mix this product with other chemicals. Dilute with water only.

DISH WASHING MACHINES: Dilute 4 ounces per gallon of water. Fill system with water. Add product. Run machine until lime deposits are gone. Drain system. Rinse with potable water.

STEAM TABLES: Use full strength. Wipe onto inside surfaces. Let soak for 5-10 minutes. Scrape off remaining deposits. Drain and rinse with potable water.

COFFEE URNS: Dilute 2 ounces per gallon of water. Fill with hot water solution. Heat for 15 minutes. Drain and rinse with potable water.

STAINLESS STEEL, ALUMINUM TILE, CEMENT, GLASS OR PLASTIC:

Dilute 2 ounces per gallon of water. Using a warm-water solution, wipe surfaces, rinse with potable water. Wipe dry. Heavy deposits may require 4 ounces per gallon of water. Aluminum may be soaked until bright. May be used in utensil washing machines. Add to pre-wash cycle.

TOILETS AND URINALS: Pour 4 ounces into bowl or urinal. Cleans and deodorizes. Eliminates rust, scale and stains.

SPECIFICATIONS:

Appearance.....	Red liquid
Odor.....	Characteristic odor
pH.....	< 1
Specific Gravity.....	1.053
Flash Point.....	None to boiling
Boiling Point.....	Appx. 212°F
Water Solubility.....	Complete
